# A bit about this event

Hampshire's Community Led Housing Hub aims to provide a consistent service to all community groups in the county ensuring that everyone receives the same level of support and guidance.

Success will rely on us working closely with a variety of people across Hampshire. We are therefore keen to ensure that you are given an opportunity to learn about community led housing and the ways in which we can work together to deliver a scheme in your area.

## This event will:

- 1. Enhance your understanding of community led housing
- 2. Help you identify how community led housing schemes can be brought forward in your area

## It will also enable you to:

- 3. Find out about best practice
- 4. Network with key stakeholders to aid delivery
- 5. Hear about the resources available
- 6. Ask questions and learn from experts in the field

So, what actually is community led housing?

Community led housing is when local people come together to deliver their own housing solutions, ensuring that the homes they feel are needed are built for those in housing need in their community. Residents are actively involved in these schemes.

*Community led housing is a growing movement*

The government recently relaunched a £163million fund to enable the delivery of community led housing schemes across the country
